FINANCIAL.

NEW YORK, April 17.—Money—Easy at 1
1/4 per cent, closing at 1 1/2 per cent.

Prime mercantile paper—4 1/2%.

Steering Exchange Bills—Active and strong;

4 1/2% demand, 4 1/2%.

Governments—Steady at unchanged quo-
tations, except a further advance in 3% to

10 1/2%.

Stocks—The peaceful tenor of early cables
and the advance in British cables led to a
depression in prices on the stock exchange
this morning, the first sales being made at a
decline of 1 1/2%, and in early dealings still
lower prices were made for the active list, but
the decline was quickly checked and there
was a fractional rally before the close of the
first half hour. The market then became less
active and so continued during the greater
part of the day. There was a slight yielding
in quotations in the afternoon. There were
not many stocks in which the extreme fluctua-
tions amounted to as much as 1 per cent,
and only four show a decline of as much as 1
per cent. Compared with last evening, all
the active list is somewhat lower.
